

SCULPT NOUVEAU Patinas and Metal Finishes

Universal Patinas

The Universal Patinas are available in numerous unique colors allowing for an unlimited variety of finishes. These patinas may be used on all metals and the Metal Coatings. They may be blended with each other or with any other patina. Universal Patinas are non-reactive, UV safe, and do not contain acids.

Dye-Oxide Patinas

Dye-Oxide Patinas are a cross between the Solvent Base Dyes and a patina. All of the colors are transparent and may be blended or layered together to produce any color. Like the Universal Patinas, Dye-Oxide Patinas are UV safe, non-reactive, and do not contain acids.
